TESTE DE NIVEL – 2026.1

CURSO: INGLÊS

SEMESTRE: 5

DIAS: _____

HORÁRIO: _____

CANDIDATO: _____ **DATA:** ____/____/____

Answer the questions 1 to 5 according to the text “My Manhattan”.

My Manhattan

Today, the island of Manhattan is home to more than 1.5 million people. We live in a place where 23% of the population drive a car noisily (and sometimes dangerously) on the streets. The city is very noisy. In a lot of the open spaces, the noise is loud enough to damage your ears. If people don't try to change this situation, we will be in a lot of trouble!

There are a lot of traffic jams because the only way in and out of Manhattan is either over a bridge or through a tunnel. If people start using public transportation more, the air pollution will get better.

The biggest green space in Manhattan is Central Park. It's 1.317 square miles. This gives people some land where they can exercise and get away from the big concrete buildings. Incredibly, more than 230 different kinds of birds live in Central Park. If you go there early on a summer morning, you'll hear them singing beautifully in the trees. There are only a few other green spaces in Manhattan. However, there is a plan to plant a million new trees in Manhattan in the next ten years.

A few years back, New York City had some of the dirtiest air in the United States. That's a sad fact. Things are getting a little better now, but if we want clean air in the future, we will need to switch to electric cars.

Manhattan is my home, and I want to help fight these problems. If we all fight together, it will be a beautiful place in the future.

1. What is one of the main problems mentioned about life in Manhattan?

- A) There are not enough people living there.
- B) The city is very noisy.
- C) Public transportation is too expensive.
- D) There are no green areas.

2. According to the text, what could improve the air quality in Manhattan?

- A) Driving more cars
- B) Building more tunnels
- C) Using public transportation more
- D) Closing Central Park

3. Why is Central Park important for people who live in Manhattan?

- A) It is the only place to work out.
- B) It is bigger than the city itself.
- C) It offers space to relax and exercise.
- D) It has the tallest buildings in the city.

4. What can people hear in Central Park early in the morning during summer?

- A) Cars driving loudly
- B) Construction noises
- C) People exercising
- D) Birds singing

5. What does the writer believe about Manhattan's future?

- A) It will improve if people work together.
- B) It will stay the same.
- C)
- D) It will have fewer people living there.

Questions from 6 to 25 are about grammar and use of language.

6. There aren't _____ green spaces in Manhattan besides Central Park.
